USDA Grant: LFPP

“Know Your Food, Know Your Farmer”

- Local Food Promotion Program
- $11.9 million awarded
- 160 projects nationwide
- Three in Alaska

Sister grant program:
Farmers Market Promotion Program
“Expanding local food markets and access through an online food hub on the Lower Kenai Peninsula, Alaska”

**GOAL:** Improve and stabilize local food systems by increasing marketing opportunities for local producers and expanding access to and purchasing of local foods on the Lower Kenai Peninsula.
Grant Objectives:

1. Develop an online food hub system that will be live by April 2016.
2. Establish & grow producer engagement.
3. Market the food hub.
4. Market food hub producers.

Local Foods Marketplace

**Local Food Marketplace**

*Powering resilient local food systems.*
Local Foods Marketplace
Local Foods Marketplace

Thank you for visiting the Hoosier Harvest Market! We will have several updates to our site in the near future, but please come on in and fill out a membership form.

HOW THE HOOSIER HARVEST MARKET WORKS:
1. Friday at noon the market will open.
2. Tuesday at midnight the market will close.
3. Your orders will be emailed to the farmers.
4. Thursday morning the farmers will deliver the products to the Purdue Extension Office in Greenfield.
5. Thursday afternoon between 4-7 PM market employees and volunteers will be at your chosen pick up location with your products.

Are you a local farmer looking for an opportunity to reach out to our community? Find out more about selling on our producer page. Do you want to register as a seller?

Halsey, ID 83332

what we sell

- Dairy and Eggs - Eggs
- Poultry - Chicken
- Meats - Pork

about us

Angel Earth Farm is located three miles southeast of Bellevue, within the Bellevue triangle. What started out six years ago as various weeds and grass, was my vision to turn ten acres of land into a beautiful organic farm with vegetables, blossoming shrubs, fruit trees, windbreaks, greenhouses, chicos, piglets, and a metagene of rescued cats and dogs to keep everyone in line. Being an organic farmer has been a labor of love, and has been the greatest form of therapy. My wife, Kathy, and I created one and a half acres of top soil that is two feet deep (with the help of my chickens and Weaver piglets). Every year I pasture raise a flock of French Heritage breeders for meat and Rhode Island Reds and Barred Rock chickens for beautiful brown eggs. In addition, I pasture raise large Black Belt sheep and pigs that just happen to dig up and fertilize the topsoil in the fields so that I can reseed it to something more beneficial. Currently I am working toward organic certification, but have decided to utilize organic practices without certifying due to cost.

practices

Even though chickens are raised on pasture, some feed is used and is sourced from the Dynamite Feed Mill at 511 North Main Street, Meridian, Idaho. The scratch is cracked corn and whole red wheat. The Weaver pig feed is also sourced from the Dynamite Feed Mill.
Local Foods Marketplace

Weekly Ordering Cycle for Growers
Local Foods Marketplace

Weekly Ordering Cycle for Growers

• Initial producer basic profile set-up should take 1-3 hours
  • Funding for photography
  • Program manager/volunteers can aid in set up

• Weekly Maintenance will be 10-20 minutes
  • Editing profile/photos/growing practices
  • Updating availability
  • Adding new items
  • Changing prices
Logistics: Hub in Action

In the coming months the advisory committee will:

• Research Food Hub successes and failures
• Establish policy and procedures
• Establish drop locations and timing
• Create a name and logo
Costs of Participation

Goal: To Keep Costs Low and Be Sustainable

- Overhead: staff, software, advertising, administration costs (bookkeeper, insurance...)
- Membership fees
  - Customers- $20/year
  - Producers- $40/year
- Volunteers
- 25% mark up on products
  - Producers set their prices
  - Food hub adds a mark-up
  - Customer only sees the final price
Next Advisory Meeting

• All meetings are open to the public
• Attend or send questions/feedback to:
  – robbi@inletkeeper.org
• Next Meeting will be:
  – Tuesday, December 8th
  – Cook Inletkeeper Office
  – 10am-12:30pm
Questions!
Feedback
