WELCOME TO THE HOMER PORT & HARBOR!

AN ALASKA CLEAN HARBOR: where clean boating is good business

ARRIVING AT THE HARBOR

No Wake Zones: A "No Wake" speed is required in the harbor. "No Wake" speed is generally below 2.5 kts and must be maintained until 1/4 mile past the outside docks.

Registration: All vessels spending a night in the harbor must complete a moorage agreement. Discounts for properly registered vessels that pay moorage fees in advance.

Transient Vessel Moorage: Transient moorage space is designated by a yellow bullrail. Transient vessels should never moor in a reserved stall without prior approval from the Harbormaster's Office.

BASIC RULES AND PRACTICES

A Sheen Is A Spill Dispersants (soaps) are not only illegal, but deadly for marine life! Report all spills to 1-800-424-8802 and the Harbormaster's Office. Yellow drums on the floats contain spill response equipment and are not garbage cans. All harbor officers are trained in spill response.

Hazardous Materials Paint, paint chips, and grinding dust are hazardous and must be contained. These kind of materials entering the harbor and waterways constitutes pollution and punishable by fine pursuant to HMC 10.08.020. The Harbor posts information on local hazardous waste disposal days at the recycling satellites.

No Discharge Zone! The discharge of any sewage (treated or untreated) into the harbor is prohibited. Please use the upland restroom facilities as much as possible during your stay at the Homer Harbor.

Scoop the Poop! There are bag stations located around the Harbor.

No fish carcass disposal is allowed in the Harbor. Use the designated areas when cleaning fish.

Boat Washing When you are washing your boat in the harbor, use cleaning products that are safe for the

environment. The Harbormaster's office has information available for boaters on boat washing practices.

Conserve Fresh Water! We all must do our part to turn off hoses when not in use, report excessively leaking connectors on the docks, and curb usage to a minimal or only when necessary.

No Feeding Wild Animals

AMENITIES AND SERVICES

24 hour harbor coverage

Potable water year-round at Harbormaster's Office, Fish Dock, Deep Water Dock, and Pioneer Dock. May 1 to Oct 1 along A through N Float, at the end of EE and FF Float, and one side of EE Float.

110v, 220v, and 208v Electricity

Recycling of used oil, filters, oily rags, antifreeze, zincs, and used batteries. Dumpsters throughout the harbor. Recycling of cardboard, aluminum, and glass.

Fuel Two fuel floats are located near the Harbor entrance. Contact on VHF 16 or 235-8548/235-4071. Please use absorbents and be careful to avoid spills when fueling in the Homer Harbor.

Fish Cleaning Tables located during summer months at the top of Ramps 4 and 6 and at the Fishing Lagoon. Do not throw carcasses in the Homer Harbor.

Sewage Pump Out The "Eco Barge" is located seasonally at EE Float. Contact the Harbormaster's Office for key and instructions.

Kids Don't Float Children's PFDs are available at the top of several ramps around the harbor. State law requires all children under 13 to wear PFDs. Please return at the end of your voyage!
