

Nov. 8, 2010

Hi my Alaska brothers and sister Treehuggers.
Thanks for the beautiful card, the love
& kind words.

Sorry to take so long in getting back to you
but I've been really sick.

The cancer is spreading. Many people in ~~the~~
our communities have this cancer - and as
the further downstream of mining discharge
water goes - the worse it is.

Tell no warn your communities - that the
~~man~~ woman that came to talk a year
or so ago - is dying with cancer along with
many of her community.

If they allow more mining - that fate awaits their
children & them.

My Energy ~~level~~ level is low - now - get to
go now.

Good luck - & Love to you all - please
pass this or copy this letter & give to Mike Ruffin
too.

Love Judy Bonds
